THE GLOBAL AESTHETIC CENTRE

Each year, at the AkzoNobel Global Aesthetic Centre in the Netherlands, we draw on extensive research to identify the Dulux Colour of the Year – a definitive colour that matches the mood of the moment. We then use this to create colour palettes that will help transform people's living spaces into homes that respond to their needs. The research has indicated that people around the world are experiencing a renewed sense of optimism and purpose. There's a desire to reach out, engage with others, to make things better and 'be the change'. People are ready to seize the moment.

"For 15 years we have been telling the story of how global trends research translates into paint colours for the home. The story begins at our global aesthetic centre – the heart of our research process."

**COLOUR OF
THE YEAR
2019**

Spiced HONEY

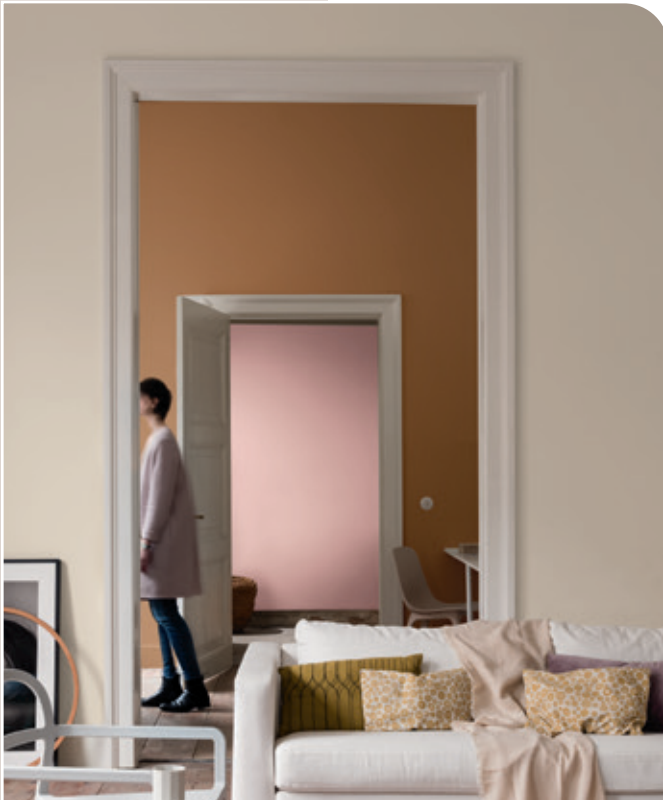

When we allow ourselves the time to reflect, we are able to reinvigorate our sense of optimism, fueling our desire to break out of our comfort zones to challenge ourselves and become the change the world needs. We need to surround ourselves with people and spaces that encourage us and push us, to draw back the curtains of doubt and uncertainty to LET THE LIGHT IN!

The Dulux Colour of the Year 2019, Spiced Honey perfectly embodies our new sense of optimism and energy by drawing inspiration from the natural tones of honey. A warm amber hue, Spiced Honey's earthy richness creates a grounding depth, allowing us to experiment with bold pops of colour, materials and styles of decoration. Spiced Honey bridges the gap between the unknown and the comfortable, to create spaces to think, to dream, to love and to act.

Toddlers' to **TEENS'** **BEDROOMS**

Kids are fickle creatures that live in the here and now. Their interests are constantly changing and they conveniently forget about cleaning up their creative mess. Let's give them the freedom to learn, live and play in rooms that grow with them, supporting them through their varying interests.

With Dulux Super Clean, you are able to take that moment and admire your toddler's crayon and lipstick masterpiece, or marvel at how your teenager managed to fling mud that high up on the wall. Being able to simply wipe away the stress allows you to find the brighter side in even the messiest situations.

Make a small but strong statement by adding an accent colour to your window frames. Choose a Tangerine Fizz to bring that refreshing dash to your room.

Transform a tatty table by painting the top and legs in contrasting shades for a balanced but impactful finish. For ease, flip the table upside down and start with the legs, then turn it back over to paint the top.

DEFINE YOUR SPACE

Tailor a top trend to suit your style for a dedicated home office space

This season's must-try trend is geometric shapes. It's a great way to create strong focal points and dedicated spaces in multi-functional rooms, and we've combined sharp angles and pastel palettes for our own take on the technique. The rules are simple – there are no rules! Be playful, embrace asymmetry, and don't be afraid to experiment.

CREATING MORE SPACE WITH PAINT

Your kitchen doesn't need to be massive to make it a place you want to spend time in – a few clever tricks with colour and it can become the hub of any home. Here, we've opened up a small, dark kitchen using bright White on White as the backdrop, while the units have been given a new lease of life in light Snow Field.

To add more storage, we mounted a series of simple square boxes on the far wall, then painted accent bands of colour inside with Seal Grey and Vienna Lake to really make them pop. Finally, we refreshed the stools using Everclear and Seal Grey, making the old new again for the ultimate in upcycled chic.

TRY THESE COLOURS AT A TAP

Download the free Dulux Visualizer app and you'll be able to see and save images of how these new colours will look in your own home.

TAKEAWAY TIP

If you're tight for space, use clever solutions like a fold-down table and stackable stools
