

# Asian Paints Crack Nil 1A15 - Product Information

Crack Nil 1A15 is a white cement-based, polymer-modified powder designed for filling cracks in plastered surfaces. It provides durable, waterproof, and flexible crack repair suitable for both interior and exterior walls.

**Features & Use:** - Strong adhesion and flexibility due to polymer modification - Ideal for hairline to moderate cracks in plastered walls - Provides waterproofing and long-term durability - Easy to mix and apply with mortar

| Pack Size | Price (INR, June 2022) |
|-----------|------------------------|
| 0.5 kg    | ■65                    |
| 1 kg      | ■108                   |
| 25 kg     | ■2,185                 |

## Recommendations & Best Practices:

1. Clean cracks thoroughly—remove dust, loose particles, and debris.
2. Wet the crack surface before applying Crack Nil mix.
3. Mix to a workable paste consistency and apply with a trowel or putty knife.
4. Allow proper curing time for maximum bonding and waterproofing effect.
